PULSE NB-IoT

Give all your meters communications capability.

ALERT

· Monitor any leaks

MONITOR

· Receive readings feedback from gas and power meters
· Monitor over-consumption (gas, water and electricity)

BENEFITS

NB-IoT™

- · Up to 2 connectable meters
- · Detection of tampers and leaks
- · Flow rate monitoring
- · Locally and remotely configurable
- · Data logging for optimal autonomy
- · Redundancy for better service continuity

PRODUCT USES

Monitor your energy consumption on a building (water, electricity...).

Count the number of people or the traffic in a specific place.

TECHNICAL SPECIFICATIONS

· Network: NB-IoT

· Area: Europe, Australie, New-Zeland

· Periodic mode with or without log

· Data redundancy

· Alert concerning configuration error, low battery

· UDP communication (LwM2M on request)

· Operating temperature range: -20°C / +70°C

· Integrated fastening system: DIN rail, tube, wall, flange

· Double removable battery pack

· Dimensions: 200 x 63.5 x 34 mm

· Casing: IP68
